Xavy Cloud allows Lync Online users of Office 365 to maximize their video and collaboration experience via iPhone, iPad, and Android devices.

Mobile users have access to a range of Lync's communication and collaboration features. Multiparty IM, audio, video, application sharing, desktop sharing, file sharing, whiteboards, and PowerPoint presentations is available to Lync Online users of Office 365 on smartphones and tablets.

Today's enterprise environment demands a greater degree of collaboration and mobility. Xavy enables employees to achieve high levels of efficiency, productivity, and connectivity.

Xavy Cloud transforms the Office 365 experience by offering complete mobility to Microsoft's wide and varied Lync Online user base. Xavy Cloud is an enterprise-grade product that operates seamlessly on a broad range of devices (iPhone, iPad, Android smartphones and tablets, Symbian) across WiFi and 3G/4G networks.

Xavy Cloud is the only native mobile client for Office 365 today, connecting directly to Lync Online infrastructure.

Xavy Cloud is available in Apple App Store and Google Play Store, as well as directly for private deployments.

Xavy Cloud, a product from a company that leads innovative mobile video collaborative technology.
